# POSTER PRESENTER

## Some Ideas for Poster Presenters at August 10th Unconference Share Fair:

1. Use a 3-fold self-standing poster display (referred to as a "project board display").
2. Incorporate photographs and/or visuals.
3. Use Google Slides to prepare. Then, just print the slides to post on the display.
4. Use Velcro tape, Washi tape or color push pins to affix papers to the display.
5. Bring some type of realia (i.e., the actual book you studied, a scooter that helped you increase movement, etc.) to draw attention to your display.
6. You are welcome to bring a laptop to show a demonstration, but we are unable to guarantee we will have sufficient outlets near the displays, so bring it fully charged.
7. Make your display viewable from a distance of 2-3 feet.
8. Handouts summarizing your main points are great!
9. Set up your display at 8:00am on August 10th.
10. If at all possible, stand by your poster to answer questions on August 10th.
